WORK EXPERIENCE

Sr. Software Engineer / Tech Lead

National Christian Foundation | 2022 - Current

- Lead 2 Agile teams in migrating legacy frontend systems from Salesforce to a modern React tech stack
- Manage efficiency of deployments including reducing app build times by over 45% and decreasing bundle size by ~80% by migrating framework to TanStack Start
- Facilitate cross-team communications between API, data, UX design, and frontend teams
- Collaborate with the UX design team to create a standard design system in Figma and implement a custom component library
- Develop and deploy features using TypeScript, React, Node, TanStack Start, GitHub Actions, and Azure Web Apps

Software Engineer, Contractor

Automatic, Inc. | 2021 - 2022

- Contributed UX improvements to reduce experimenters' error rates when using a web app for managing A/B tests
- Improved sorting & filter functionality by converting data grids from Material UI to AG Grid React

Assistant Professor

Ripon College | 2019 - 2021

- Taught a variety of CS courses in Python and C#, including Data Structures, Machine Learning, and Data Visualization
- Managed a team of 3-4 undergraduate students to design and develop an educational algebra game using Unity Engine
- Received an average overall rating of 4.4/5.0 from student evaluations in Spring 2021

Data Science Intern

Musicnotes, Inc. | 2018

- Developed interactive web dashboards and data visualizations using JavaScript, Node, React, and D3
- Prototyped an AI model to predict customer sales with ~80% percent accuracy using Python machine learning libraries

Teaching Assistant

University of Wisconsin-Madison | 2014 - 2017

- Provided students with instant feedback on their assignments by managing a custom automated testing server
- Wrote unit tests for all of the homework assignments for an introductory Java course
- Designed programming assignments for an introductory Python course

SKILLS

Languages/Frameworks: TypeScript, JavaScript, React, Node, Python, CSS, HTML, C#

Tools: Git, GitHub Actions, Azure, AWS, Figma, Jira/Atlassian

Other: CI/CD, A/B testing, UX research

EDUCATION

Ph.D. in Computer Sciences and Education

University of Wisconsin-Madison | Madison, WI | 2021

Thesis: *Productive & Unproductive Frictions in Game Design*

M.S. in Computer Sciences

University of Wisconsin-Madison | Madison, WI | 2016

B.S. in Computer Science

University of Oklahoma | Norman, OK | 2014
